

"I just wanted to take a moment to say a huge thank you to you and the Trefoil team from me and the entire AerFin team for delivering our fit-out project at Indurent Park on time and to such a first-class standard.

We truly appreciate how you stepped in at the 11th hour, seamlessly took over the project, and got it across the finish line. Your transparency and clear communication throughout kept us informed and gave us complete confidence that the project was in excellent hands.

This facility is a true game-changer for us. Thanks to you and your team, we now have a headquarters that we are proud to call our own, a space we're excited to bring our customers to, and—most importantly—a workplace that our people are proud to come to every day.

Thank you again for making this possible." AerFin's Chief Operational Officer, Simon Bayliss.
